

Westin
harmony

The Harmony is the latest in worktop solutions — a fully featured induction hob partners with efficient extraction to provide an ideal cooking combination.

Westin Harmony

The Harmony is an integral hob and extractor.

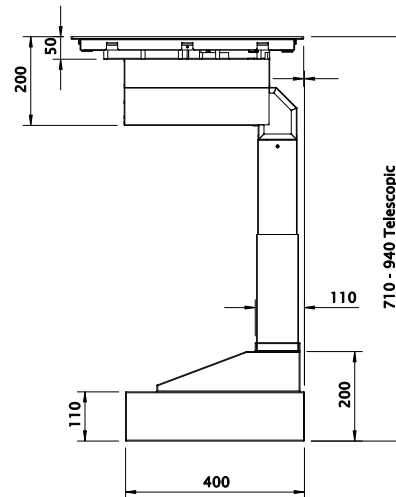

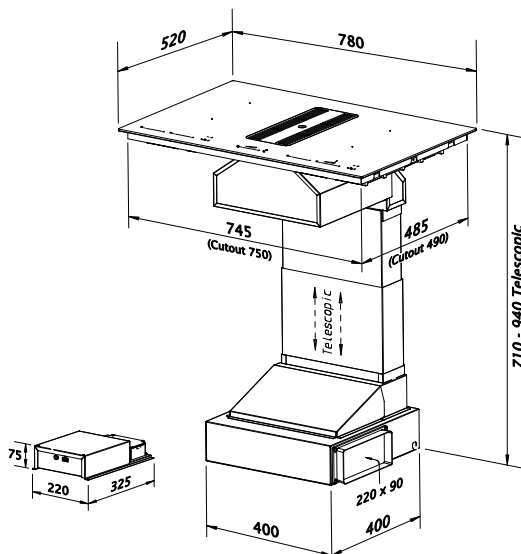

The new Westin Harmony is the latest in worktop solutions and provides an ideal cooking combination. A fully featured induction hob partners with efficient extraction to quietly draw odours, steam and fumes as soon as they are created. It offers a simple solution with minimal installation where ceiling extraction may not be an option.

The Harmony's superior performance comes as a result of an energy efficient motor and the need for less duct bends within its installation.

The Harmony package includes the G5 induction hob, a SEM12 plinth motor and the ducting beneath the hob as shown in the technical drawing.

Extractor specification

Extractor type:	Integral to hob
Model refs:	Harmony
Dimensions:	780 x 520 x 710-940mm telescopic
Finish:	Black glass
Controls:	4-speed touch control
Lighting:	None
Filters:	Aluminium mesh, suitable for dishwashers
Duct position:	Left or right (all ducting shown is included)
Motor options:	SEM12 plinth motor included (air ducted out or recirculated)
Energy rating (internal motor)	n/a
Energy rating (remote motor)	B

Hob features

- Induction G5 Hob
- Touch Controls for all functions
- 4 x Cooking Zones
- 4 x 3700W Max Cooking Zone Power (4 x 2100W = P: 4 x 3700W) Total Output: 7400W
- Bridging Function: Flexible cooking zones combine to create single large zones (Zone 1+2 and Zone 3+4)
- Automatic heat-up function
- 9 Power settings for all zones
- Booster function on all zones
- Over-heating protection
- Keep warm function
- Timer function
- Operating time limit function
- Safety lock
- Pause function and recall
