The Stratus Air is a flush fitting, white ceiling unit designed to blend into the ceiling for utmost discretion and near invisibility.

Westin Stratus Air

This flush fitting, white ceiling unit from Westin is the most discreet of all as it has no lights which means it blends into the ceiling and is hard to see.

The lack of lights has the added benefit of enabling designers to create a separate lighting pattern in the ceiling without the lights in the extractor detracting from it.

Lights were originally used in cooker hoods to aid visibility during cooking when the extractor was close to the hob but there is no requirement for this with ceiling units.

Extractor type:	Ceiling unit
Model ref:	Stratus Air
Dimensions:	880 or 1180 x 420 x 200 (remote) or 290mm (internal motor)
Finish:	Painted white
Controls:	4-speed remote control
Lighting:	None
Filters:	Concealed, suitable for dishwashers
Duct position:	Left, right, front, rear or top
Motor options:	Internal, remote or recirculating
Energy rating (internal motor)	B
Energy rating (remote motor)	B
