The Stratus Flush is the perfect choice for a sleek, minimalist kitchen as it sits flush in the ceiling or bulk head.

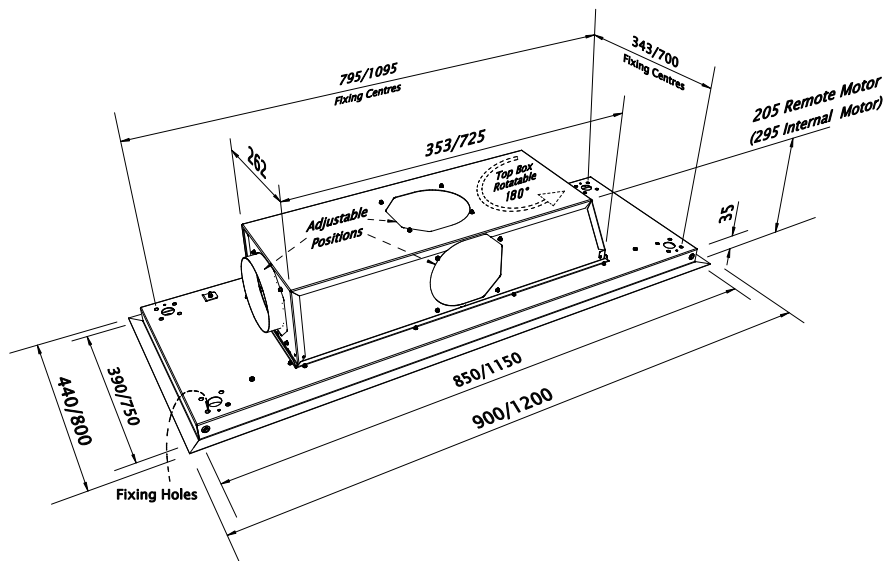

Westin Stratus Flush

Westin ceiling units are tailored to British ceilings and due to their unevenness, the Stratus was produced so that regardless of the straightness of the ceiling, the unit would look level.

With the increase in new properties with level ceilings and the popularity of bulk heads with designers, the Stratus Flush has been developed to provide a flush fitting solution.

Extractor type:	Ceiling unit
Model ref:	Stratus Flush
